things to do

before you're

five

#3

Treasure Time

Babies love to explore with their hands and mouth, so a treasure basket with things that are interesting and 'safe' to touch and dribble over would be perfect. Toddlers and older children love things that look, feel and smell interesting and exciting.

#7

Making Music

Young children show a great deal of curiosity. They love to make a noise and see the reaction it gets. Help everyone from babies upwards to channel their musical genius with everyday household items, or even make some "musical instruments" of your own.

#11

Making Connections

Connections are often fascinating for children, they love to fasten up the buggy reins, spending ages mastering this task. Fastening or connecting is very often part of a child's everyday playing - think of jigsaws, train tracks and Lego, children often like to wrap up presents too.

Where have I gone?

Babies and children love to play peepo and older children love the excitement of hiding and exploring. Hide and seek, peek-a-boo, sardines and other hiding games are a great way to have fun and to reaffirm attachments between you and your child.

Home from Home

Making dens is a favourite childhood pastime. Children love to create a special cosy place where they can feel safe and secure, or a secret place where they can read a favourite story, watch for bears and birds, or a base camp for their next adventure.
